Subject index

Adsorption
Adsorption kinetics of electrode processes and the mechanism of Kolbe electrosynthesis. Part II: The role of adsorption in processes taking place during electrolysis of carboxylic acid salts (Vassiliev, Grinberg) 281
Alcohols
Study by cyclic voltammetry and potential-modulated reflectance spectroscopy of the electroadsorption of methanol and ethanol on a rhodium electrode in acid and alkaline media (Caram, Gutiérrez) 309
Aliphatic sulfides
Electrochemical oxidation of aliphatic sulfides under very weakly nucleophilic conditions—the transient formation of a dicationic dimer (Elinson, Simonet) 363
Alkaline medium
Effect of some ad-atoms on the electrocatalytic oxidation of ethanol on a platinum electrode in alkaline medium (El-Shafei et al.) 73
Alternating current
New methods for the application of an alternating current. Part II. Spherical electrodes (Molina et al.) 1
Anion exchange
Polarization phenomena at the interfaces between an electrolyte solution and an ion exchange membrane. Part II. Ion transfer with an anion exchange membrane (Taky et al.) 195
Anodic dissolution
Cathodic fabrication of platinum microparticles via anodic dissolution of a platinum counter-electrode: electrocatalytic probing and surface analysis of dispersed platinum (Kulesza et al.) 35

Carboxylic acid salts
Adsorption kinetics of electrode processes and the mechanism of Kolbe electrosynthesis. Part II: The role of adsorption in processes taking place during electrolysis of carboxylic acid salts (Vassiliev, Grinberg) 281
Catalysis
Incorporation of redox-active cations into tungsten oxide coatings on electrodes: enhancement of coating stability and electrocatalytic activity (Roland, Anson) 245
Cation exchange
Polarization phenomena at the interfaces between an electrolyte solution and an ion exchange membrane. Part I. Ion transfer with a cation exchange membrane (Taky et al.) 171
CdS
Surface reactions of CdS in hypochlorite solutions (De Wit, Kelly) 125
Chemisorption
Effects of monolayer packing on the electrochemical activity of chemisorbed thioderivatized *N,N'*-dialkyl-4,4'-bipyridinium (Katz et al.) 357
Conductive stationary phase
Electrochemical ion chromatography using a conductive stationary phase (Nagaoka et al.) 45
Copper
Experimental evidence for local dissolution during galvanostatic copper electrodeposition (Deng, Pritzker) 25
Cyclohex-2-en-1-one
Electrohydrodimerization of cyclohex-2-en-1-one on liquid gallium from aqueous solutions (Foresti et al.) 99

Dendritic growth
Mass-transport-induced kinetic transitions during the electrochemical formation of three-dimensional dendritic silver deposits under ohmic control (Creus et al.) 85
Diazonium salts
Immobilization of glucose oxidase on a car-

bon surface derivatized by electrochemical reduction of diazonium salts (Bourdillon et al.) 113

Dicationic dimer
Electrochemical oxidation of aliphatic sulfides under very weakly nucleophilic conditions—the transient formation of a dicationic dimer (Elinson, Simonet) 363

Doping density
Scanning tunneling microscopy-tip current voltammetry studies of n-GaAs — effect of illumination, doping density and potential (Eriksson et al.) 57

Double-layer effect
Double-layer effect on the transfer of some monovalent ions across the polarized oil–water interface (Kakiuchi et al.) 137

Electroadsorption
Study by cyclic voltammetry and potential-modulated reflectance spectroscopy of the electroadsorption of methanol and ethanol on a rhodium electrode in acid and alkaline media (Caram, Gutiérrez) 309

Electrocatalytic probing
Cathodic fabrication of platinum microparticles via anodic dissolution of a platinum counter-electrode: electrocatalytic probing and surface analysis of dispersed platinum (Kulesza et al.) 35

Electrochemical ion chromatography
Electrochemical ion chromatography using a conductive stationary phase (Nagaoka et al.) 45

Electron transport
Electron transport in quaternized poly(4-vinylpyridine) films containing pentacyanoferrate(II/III) on electrodes. The influence of the binding type of the electroactive complex (Larsson et al.) 263

Galvanostatic relaxation
On the theory of the galvanostatic relaxation technique as applied to redox electrodes with two consecutive charge-transfer steps (Kopistko, Batyrbekova) 223

Germanium electrodes
In-situ infrared investigations of the electrochemistry of heteropolyacids at n-Ge electrodes (Mandal et al.) 153

Glucose oxidase
Immobilization of glucose oxidase on a carbon surface derivatized by electrochemical reduction of diazonium salts (Bourdillon et al.) 113

Heteropolyacids
In-situ infrared investigations of the electrochemistry of heteropolyacids at n-Ge electrodes (Mandal et al.) 153

Hydrodimerization
Electrohydrodimerization of cyclohex-2-en-1-one on liquid gallium from aqueous solutions (Foresti et al.) 99

Hypochlorite
Surface reactions of CdS in hypochlorite solutions (De Wit, Kelly) 125

Illumination
Scanning tunneling microscopy-tip current voltammetry studies of n-GaAs — effect of illumination, doping density and potential (Eriksson et al.) 57

Immobilization
Immobilization of glucose oxidase on a carbon surface derivatized by electrochemical reduction of diazonium salts (Bourdillon et al.) 113

Ion exchange
Polarization phenomena at the interfaces between an electrolyte solution and an ion exchange membrane. Part I. Ion transfer with a cation exchange membrane (Taky et al.) 171
Polarization phenomena at the interfaces between an electrolyte solution and an ion exchange membrane. Part II. Ion transfer with an anion exchange membrane (Taky et al.) 195

Kolbe electrosynthesis
Adsorption kinetics of electrode processes and the mechanism of Kolbe electrosynthesis. Part II: The role of adsorption in processes taking place during electrolysis of carboxylic acid salts (Vassiliev, Grinberg) 281

Liquid gallium
Electrohydrodimerization of cyclohex-2-en-1-one on liquid gallium from aqueous solutions (Foresti et al.) 99

Local dissolution
Experimental evidence for local dissolution during galvanostatic copper electrodeposition (Deng, Pritzker) 25

Metal ad-atoms
Effect of some ad-atoms on the electrocatalytic oxidation of ethanol on a platinum electrode in alkaline medium (El-Shafei et al.) 73
Monolayer packing
Effects of monolayer packing on the electrochemical activity of chemisorbed thioderivatized *N,N'*-dialkyl-4,4'-bipyridinium (Katz et al.) 357

Nitrobenzene
Double-layer effect on the transfer of some monovalent ions across the polarized oil–water interface (Kakiuchi et al.) 137
N,N'-dialkyl-4,4'-bipyridinium
Effects of monolayer packing on the electrochemical activity of chemisorbed thioderivatized *N,N'*-dialkyl-4,4'-bipyridinium (Katz et al.) 357

Oxidation
Effect of some ad-atoms on the electrocatalytic oxidation of ethanol on a platinum electrode in alkaline medium (El-Shafei et al.) 73

Pentacyanoferrate
Electron transport in quaternized poly(4-vinylpyridine) films containing pentacyanoferrate(II/III) on electrodes. The influence of the binding type of the electroactive complex (Larsson et al.) 263
Platinum electroplating
Investigation of potentiostatically electroplated Pt film acquiring preferred orientation by heating (Sumino, Shibata) 329
Platinum microparticles
Cathodic fabrication of platinum microparticles via anodic dissolution of a platinum counter-electrode: electrocatalytic probing and surface analysis of dispersed platinum (Kulesza et al.) 35
Polarization
Polarization phenomena at the interfaces between an electrolyte solution and an ion exchange membrane. Part I. Ion transfer with a cation exchange membrane (Taky et al.) 171
Polarization phenomena at the interfaces between an electrolyte solution and an ion exchange membrane. Part II. Ion transfer with an anion exchange membrane (Taky et al.) 195
Polyvinylpyridine
Electron transport in quaternized poly(4-vinylpyridine) films containing pentacyanoferrate(II/III) on electrodes. The influence of the binding type of the electroactive complex (Larsson et al.) 263
Potential
Scanning tunneling microscopy-tip current voltammetry studies of n-GaAs — effect of illumination, doping density and potential (Eriksson et al.) 57
Preferred orientation
Investigation of potentiostatically electroplated Pt film acquiring preferred orientation by heating (Sumino, Shibata) 329
Proton conductors
Electrochemical behaviour of the H_xWO_3–proton conductor interface (Palombari, Sebastiani) 349

Redox-active cations
Incorporation of redox-active cations into tungsten oxide coatings on electrodes: enhancement of coating stability and electrocatalytic activity (Roland, Anson) 245
Redox electrodes
On the theory of the galvanostatic relaxation technique as applied to redox electrodes with two consecutive charge-transfer steps (Kopistko, Batyrbekova) 223
Redox polymer films
Electron transport in quaternized poly(4-vinylpyridine) films containing pentacyanoferrate(II/III) on electrodes. The influence of the binding type of the electroactive complex (Larsson et al.) 263
Redox reactions
The investigation of redox reactions with a scanning tunneling microscope. Experimental and theoretical aspects (Schmickler, Widrig) 213
Rhodium electrode
Study by cyclic voltammetry and potential-modulated reflectance spectroscopy of the electroadsorption of methanol and ethanol on a rhodium electrode in acid and alkaline media (Caram, Gutiérrez) 309

Scanning tunneling microscopy
Scanning tunneling microscopy-tip current voltammetry studies of n-GaAs — effect of illumination, doping density and potential (Eriksson et al.) 57
The investigation of redox reactions with a scanning tunneling microscope. Experimental and theoretical aspects (Schmickler, Widrig) 213
Silver
Mass-transport-induced kinetic transitions during the electrochemical formation of three-dimensional dendritic silver deposits under ohmic control (Creus et al.) 85
Spherical electrodes
New methods for the application of an alternating current. Part II. Spherical electrodes (Molina et al.) 1
Surface analysis
Cathodic fabrication of platinum microparticles via anodic dissolution of a platinum counter-electrode: electrocatalytic probing and surface analysis of dispersed platinum (Kulesza et al.) 35
Tungsten bronzes
Electrochemical behaviour of the H_xWO_3–proton conductor interface (Palombari, Sebastiani) 349
Tungsten oxide
Incorporation of redox-active cations into tungsten oxide coatings on electrodes: enhancement of coating stability and electrocatalytic activity (Roland, Anson) 245
